

VOUCHERS FOR REVIEWERS – terms and conditions

- **The voucher is credited to the reviewer’s account after the Editor-in-Chief makes a final decision** (positive or negative) on the article the reviewer participated in the review of.
- **The voucher is valid for 2 years from the date of granting.**
- Vouchers can be used in both journals of the Publisher (“International Journal of Occupational Medicine and Environmental Health” and “Medycyna Pracy”) **to reduce the editorial fee** for initially accepted articles.
- **The editorial fee** can be reduced **up to 45%**.
- **When defining a payment for an article initially accepted** for publication, the user decides whether and which vouchers he/she wants to use. The system deducts the appropriate amount from the defined value of the editorial fee and the voucher is marked as used.
- A list of vouchers is visible in the user’s account.
- **A voucher can only be used by the person submitting the work** (it is assigned to the account) – **it is not possible to sum up vouchers of several authors.**
- **Vouchers cannot be combined with promotions/special offers!** Article submitted under promotional conditions cannot be paid with vouchers.
- Vouchers will be given to reviewers who have received **the first invitation to review a paper from the date these rules come into effect.**
